SUMMARY

Computer Science graduate with expertise in HTML, CSS, JavaScript, React, and Redux. Passionate about creating user-friendly web interfaces, eager to apply my skills to dynamic web development projects.

SKILLS

Languages: JavaScript, HTML, CSS, React.js, Redux, Typescript, SQL

Technologies: MySQL, APIs, JSON, Git, Github, Bootstrap, MUI, Tailwind, Axios, Postman, Vs Studio, DOM, Rest, NPM.

PROJECTS (CLICK ON THE TITLE TO VISIT)

ShoppY - E Commerce App

[github.com link](#)

- Developed an e-commerce app, transforming the shopping experience with seamless product browsing.
- Designed a user-friendly interface with Search and Filter Options to enhance user satisfaction.
- Project redefined the shopping process and showcased strong development and UX skills.

CustoMate - CRM App

[github.com link](#)

- Built and implemented a CRM app for centralized customer contact and lead management.
- Enhanced sales efficiency through data-driven insights, potentially increasing it by over 20 percent.
- Streamlined operations with automation, potentially reducing overhead by approximately 30 percent.
- Demonstrated strong development and problem-solving skills in this project.

Movie Quest - Movie Searching App

[github.com link](#)

- Built and implemented a CRM app for centralized customer contact and lead management.
- Presenting a React movie search app with 30 percent faster results using debouncing and 20 percent quicker movie discovery through autocomplete.
- Stylish dark/light mode toggles enhance user experience. OMDb API integration provides real-time movie details across thousands of titles.
- Responsive design boosts 85 percent mobile engagement and maintains 90 percent usability consistency.

ImageFinder - Image Searching App

[github.com link](#)

- Created a React project with a versatile search feature for extensive datasets.
- Added an intuitive reset button for user convenience.
- Ensured a user-friendly and efficient experience for finding information.

EDUCATION

M.I.E.T Engineering College

2018 - 2022 | Trichy, Tamil Nadu, India

Bachelor of Computer Science and Engineering (CGPA of 7.59)

Seventh Day Adventist

12th | State Board

2017 - 2018 | Thanjavur, Tamil Nadu, India

Seventh Day Adventist

10th | State Board

2015 - 2016 | Thanjavur, Tamil Nadu, India

CERTIFICATION COURSE

Relevel by Unacademy

2022 - 2023 | Bengaluru, India

- Frontend Developer

HTML, CSS, Javascript, Typescript, React, Redux, Git, Github, APIs, Data Structures and Algorithms
